

PA system

For years the Zrce Beach in Novalja on the island of Pag has been one of the top tourist destinations of the Adriatic coast. The proven entertainment concept of the high quality programmes as well as the great cultural and tourist offer, have ensured Aquarius the title of a tourist must see destination, in merely three years of its existence. The greatness of Club Aquarius is created by two floors, a stage, a garden and a terrace, a pool with tables and chairs and the only open-air fitness centre in Croatia. In the same manner, the AVC took care of the top quality sound system with Crown amplifiers, JBL loudspeakers and professional class audio components. We believe that the Club's PA system adds to its top tourist destination status among young people.
