

SNG Vehicles

HRT as the biggest TV company in Croatia ordered from AVC an OB van with satellite uplink for World Football Championship - Germany 2006 as well as for their future projects.

The AVC expert team professionally fulfilled every client's request: from the initial meetings regarding the concept of the van through concrete details concerning the technical characteristics, choice of the equipment and requests for interior design, to the delivery itself and the subsequent support during field work. The van was equipped with a satellite antenna, 4 cameras, 3 digital recorders, a digital audio mixer, GPS SPG-s, intercom system, multiviewing system, routers, distribution amplifiers, motorized cable drums and all accessories needed.
