

Equipment for new studios and production control rooms, relocation into a new building

For Nova TV, a Croatian commercial television, AVC made the entire project, technology construction and relocation of the entire TV station. We delivered a part of the equipment to be used in production and broadcasting. Just to name a few: recorders (SONY MSW-M2000P, SONY-J-30/Sdi and DVCAM), central home, as well as Playout router (Leitch), and DVCAM camcorders with the accompanying equipment for local production shootings (SONY DSR-400P).
