

## Installation and starting of the RTL Television

In 2004 AVC installed and put into operation the RTL Television after the project made by BCE Company from Luxemburg, a member of the RTL group. Besides, AVC made lighting grid and cyclorama for the temporary and for the new RTL studios. AVC delivered a part of the equipment needed for the production and broadcasting, such as recorders (SONY MSW-M2000P, SONY-J-30/Sdi and DVCAM), teletext system (Softel), DVCAM camcorders for local shootings (SONY DSR-400P).
