

Delivery and installation of news studio - Studio C

AVC delivered, installed and equipped the entire TV studio for news production and broadcasting in the newly opened STUDIO C in the Public Broadcasting Service of Bosnia and Herzegovina with financial support of the European Commission. AVC, among other things delivered complete custom made furniture, audio-video monitoring systems and installed the complete studio ready for use. The equipment also included camera chain with rack, video scope, audio-video monitoring system, the main switcher, Intercom system as well as the complete studio lighting. Installation included complete wiring and intensive PBS BIH personnel training that covered every segment of the studio.
