

## Sound system for Arena Vodafone Live! Bowling centre

ARENA Vodafone live! is the latest opened bowling centre located in Ljubljana in BTC area right next to Ljubljana multiplex KOLOSEJ. 28 bowling tracks are covered by complete HARMAN solution of audio system. The project was designed according to the investor's requirements, which are strong and punchy bass, especially during the Friday and Saturday nights. JBL self powered 18" subwoofers are used, together with JBL Control 29AV satellites, who are powered by CROWN amplifiers to cover entire area. Results are impressive even this is very cost-effective solution because of the budget limitation. Complete system is controlled by DBX DriveRack processor and some AKG microphones are also used.
