

Sound system for Aqua park ATLANTIS

ATLANTIS is the biggest aqua park located in Ljubljana and consists of three different thematic areas. Another complete HARMAN solution was specified to cover this huge complex. Various JBL speakers were selected suiting different demands and applications, all are powered by CROWN amplifiers, AKG WMS 400 wireless system is installed and BSS SOUNDWEB is used to control audio in the entire building. Due to very specific requirements and demands some unique approaches were done in order to get maximum results.
