

## **Digital audio mixing desk for RTV Slovenia S14**

Contemporary music production is based on high-quality mixing consoles with a large number of channels and immense sound processing. RTV Slovenia's Studio 14 is equipped with a Euphonix System 5 digital mixing console, with 48 faders and 108 processing channels capability. The console supports 96 kHz / 24 bit operation with 40 bit floating point internal processing. Reliability is ensured with a redundant power supply.
