

Valamar Lacroma Resort conference & SPA

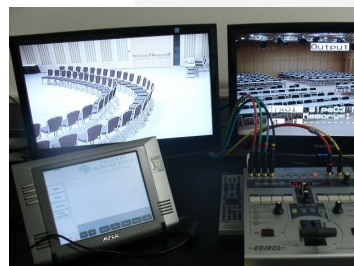

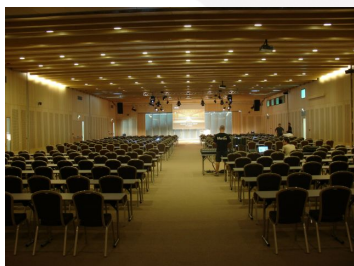

The Valamar Lacroma Resort is Dubrovnik's newest treasure and the largest conference and spa hotel in the region. It is situated in the Babin Kuk peninsula, close enough to Dubrovnik's historical centre. For business users, the Valamar Lacroma Resort excels in 21st century event hosting. A 1,000 capacity conference hall and seven more fully-equipped meeting rooms are just some of the facilities at the guests' complete disposal, which ensures that any event can run smoothly, whether it be corporate or celebratory.

The Valamar Lacroma resort congress centre is equipped with the Elafiti conference hall and a business centre. The conference hall has the total capacity of 1,000 people, and it's also interchangeably ensured that it be converted into four separate congress halls. Because of its dimensions and equipment level, it is ideal for any type of congress, fashion show, concert and similar events.

The cutting edge A/V technology installed ensures that different kind of events can take place without any difficulties.

The A/V system consists of:

- six video projections (Panasonic PT-D5700, Panasonic PT-D4000, Stumpfl screens)
- conference sound system (JBL Control Contractor, BSS Soundweb London, Crown, DBX)
- microphone system – wired and wireless (AKG Acoustics)
- simultaneous translation system (DIS)

- concert and event sound system (JBL VRX, DBX)
- scene lighting system (LSC, Martin, Strand Lighting, DTS itd.)
- central control system (AMX)
- videoconference system (Tandberg)
- Information monitors in pre-function area

The business centre contains also a polyvalent area which can be divided into four bigger meeting rooms and three small meeting rooms. It is equipped with a conference sound system (JBL Control contractor, Crown), four video projections (Panasonic PT-F200E) and the central control system (AMX).

Besides the installed equipment, you have also some mobile equipment like three video projectors/mobile screens (Panasonic PT-LB75E), flipcharts, laser pointers, presenters and mobile sound system for small events in any area (JBL, Denon).
