

Hotel Radisson BLU Resort & Spa Dubrovnik Riviera

The hotel Radisson BLU congress centre in Dubrovnik's Sun Gardens consists of a conference hall and a business centre. The conference hall can be divided in three separate congress halls with separate A/V systems.

The cutting edge A/V technology installed allows different kinds of events to take place there.

The A/V system consists of:

- three video projections and ceiling mounted lifts (Panasonic PT-D5700/, Stumpfl screens, SVS Lifts)
- conference sound system (JBL Control Contractor, BSS Soundweb London, Crown, DBX)
- microphone system - wired and wireless (AKG Acoustics)
- central control system (AMX)
- information monitors in pre-function area (Congress area and business centre)

The business centre consists of three polyvalent conference rooms and ten meeting rooms. It is equipped with a conference sound system (JBL Control contractor, Crown), three video projections (Panasonic PT-D4000E) and a central control system (AMX).
